PERSONAL PROJECTS

Gym Website (11/2023 - 01/2024)
- Developed a dynamic gym website with distinct interfaces for administrators, coaches, and students, enabling user registration, login, and personalized dashboards. Features such as body detail tracking, exercise plans, dietary information, and class schedules. Ensured role-specific functionalities, empowering coaches to update student profiles and granting administrators full platform control.

Student Management (08/2023 - 11/2023)
- A project for Java Full Stack Internship by IamNeo Company which helps in retrieiving and add data of students.

Advance Home Automation (05/2023 - 08/2023)
- It will help the owners by automatically on and off the lights, fans and motor. Automatic rotated solar panel.

Grocery Website (02/2023 - 04/2023)
- A basic grocery website offers convenient browsing and purchasing of groceries and household items. Users can explore categories, view detailed listings, and add items to their cart easily. Smooth checkout with multiple payment options ensures a seamless shopping experience, confirmed with order details.
